Amendments to the Specification:

Please amend the paragraph beginning on page 1, line 23 as follows:

-- With the possibility to use generated and/or received content on a user device, there is a need to control the usage of the content. The Open Mobile Alliance (OMA) is a standardization instance that partly addresses this need, see ~~http://www.openmobilealliance.org/~~ OMA Download Architecture Version 1.0 Version 10-June-2002, OMA Digital Rights Management Version 1.0 Version 05-September-2002, and OMA Rights Expression Language Version 1.0 Version 13-September-2002.
